

SHOW THE LOVE

Heartfelt Climate Conversations

Show the Love is a Climate Coalition Valentine's Day initiative and Citizens' Climate Lobby UK (CCL UK) is taking part - visit showthelove.org.uk and citizensclimatelobby.uk

Use these heart badges on Feb 14th to encourage your family, friend or work colleague to have a conversation with you about global warming and Carbon Fee and Dividend as a workable solution:

Print out this sheet. Cut out one (or both!) of the badges below. Stick a safety pin on the back of your chosen badge with sticky tape. Wear it. Use the ideas on the conversation card, below. Print more to hand out!

Heartfelt Climate Conversation

- Are you concerned about climate change and air pollution?
- Do you know the main causes? (*Answer: carbon dioxide and other gases and particulates from the burning of fossil fuels*)
- Did you know there's a solution that will pay us for using fewer fossil fuels?

Individual action won't work fast enough to combat climate change.

Citizens' Climate Lobby UK proposes a fee placed on fossil fuels when they enter the country, whether through import or extraction. This would encourage more investment into future clean energy available to everyone.

The money raised by this fee would be divided equally between UK citizens, which means that those who use alternatives to fossil fuels would come out ahead.

CCL UK members lobby our Government to adopt this Carbon Fee and Dividend.
